

The background of the slide is a close-up of bright orange and yellow flames. In the upper left corner, there is a red fire helmet with a black face shield. The face shield has a red label with the number '20' at the top and a red label with the number '542' at the bottom. In the lower left corner, there is a red fire truck with white and yellow details.

Tubac Festival AAR

- Over all Festival went very well
- Communications challenge with Border Patrol and AIRS repeater off Keystone Peak
- Some radios had the right frequencies but in the wrong order.
- Had battery challenges with the BK Radios and a bad batch of AA batteries but was resolved quickly
- Good communications with all agencies during the festival
- Conducted periodic radio checks with each agency everyday which helped with communications especially with the non-public safety agencies involved
- Good sharing of information between the evaluation team and the participants at the festival.
